

ABOUT THE SELWYN PROJECT

The Selwyn Project is a proposed zinc-lead mine, located in Howard's Pass in eastern Yukon, 165 km east of Ross River and 280 km north of Watson Lake, on the border with the Northwest Territories. The project is one of the largest undeveloped zinc-lead deposits in the world.

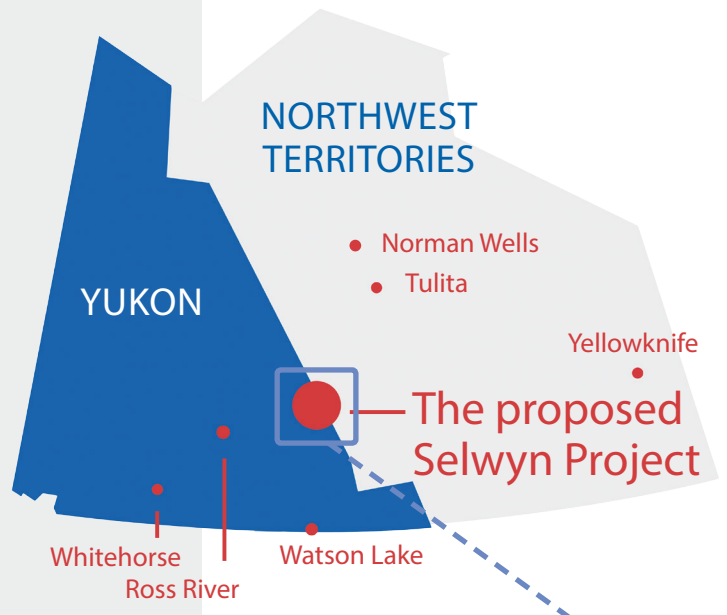

OUR GUIDING PRINCIPLES FOR DEVELOPING THE SELWYN PROJECT

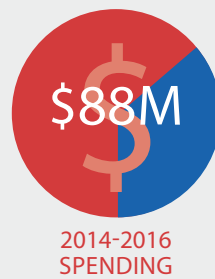

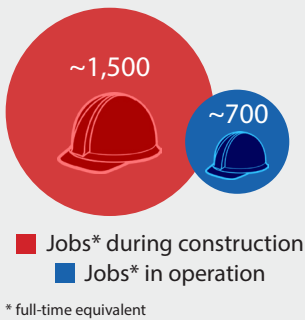

- Protect the environment
- Respect the people and places where we operate
- Build long-term relationships and find ways for local communities to benefit from what we do
- Create and sustain healthy, safe environments for communities and our employees

PROPOSED SELWYN PROJECT HIGHLIGHTS

- An open-pit mine with an estimated mine life of 11+ years (Phase 1)
- Completing permits for additional phase 2 drill program with another 10 years of mine life
- Processing capacity of 35,000 tonnes per day using conventional milling and flotation
- Estimated daily yield of 2,500 tonnes of wet zinc concentrate and 600 tonnes of wet lead concentrate, that will be trucked to the Port of Stewart for export
- Preliminary cost estimates
 - Capital cost: ~US\$ 2.12B

ADVANCING THE SELWYN PROJECT

Completed upgrades to the Howard's Pass Access Road in 2014: eight new bridges and road reconstruction to allow all-season access.

GEOLOGICAL RESOURCE ESTIMATES

	Indicated	Inferred
	185.6 MT	237.9 MT
Zinc	21.26B lbs (9.7 MT)	23.4B lbs (10.6 MT)
Lead	7.3B lbs (3.3 MT)	7.2B lbs (3.2 MT)

NI43-101 Indicated and Inferred resources, as of September, 2012. MT= Million Tonnes

MANAGEMENT TEAM

- Richard (Shilin) Li – CEO
- Kevin (Luogang) Chen – CFO
- Maurice Albert – VP, External Affairs
- John J. O'Donnell – VP, Exploration
- Wang Li – VP, Parent Company Affairs

Consultants

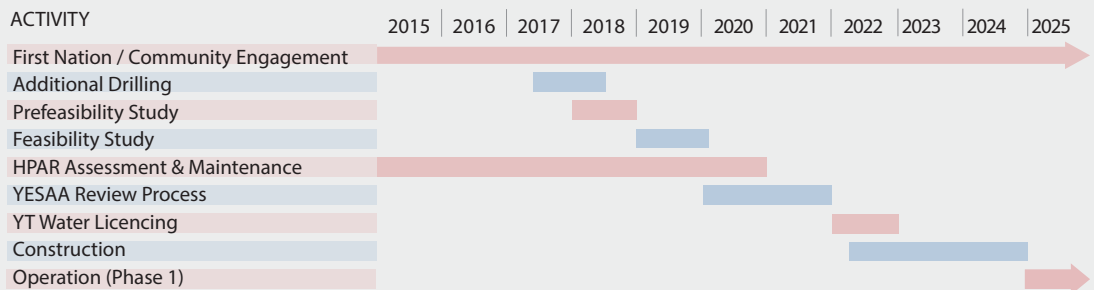

Hatch • Klohn Crippen Berger • Schlumberger • Access Environmental

OWNERSHIP

The Selwyn Project is 100% owned and operated by Selwyn Chihong Mining Ltd., (Selwyn Chihong), the Canadian subsidiary of Yunnan Chihong Zinc & Germanium Co., Ltd. (SSE 600497; market cap: RMB¥ 14B or CDN\$ 3B)

PROJECT TIMELINE

The Selwyn Project is in the advanced exploration phase. Selwyn Chihong, with its team of experts and consultants, is doing the technical and environmental research and studies required to design the proposed mine. We are also preparing to submit the Project to the environmental and socio-economic assessment process.

2014 & 2015 ACHIEVEMENTS

- Completed Preliminary Economic Assessment (PEA)
- Completed 65,000-meter drill program
- Completed upgrades to Howard's Pass Access Road (HPAR) to allow all-season access
- Secured permit to widen HPAR
- Socio-economic Participation Agreement (SEPA) initialled by Kaska and Selwyn Chihong negotiators for ratification vote when PFS restart
- Completed 2014 and 2015 Baseline Studies
 - Baseline water quality, hydrology and climate data collection
 - Fisheries studies
 - Spring and Fall Caribou studies
 - Pit hydrogeology studies
 - Mine rock characterization
- Registered in the Progressive Aboriginal Relations (PAR) certification program with the Canadian Council for Aboriginal Business

FOCUS For 2016

- On-going Baseline Studies and compliance
- On-going local community engagement
- On-going HPAR permitting and maintenance activities
- On-site reclamation activities implemented for prior drill programs
